

10. Write a PHP program to sort the student records which are stored in the database using selection sort.

```
<!DOCTYPE html>
<html>
<head>
    <title>Selection Sort</title>
</head>

<!-- jQuery 3 -->
<script src="jquery.min.js"></script>

<script type="text/javascript">
var globalData=null;
var tempData;
if(tempData===null||tempData===undefined){
    tempData={ };
}

tempData={
    saveRecord:function(){
        var url="ajaxInfo.php";
        var formEQData = new FormData($('#formRecord')[0]);
        formEQData.append("saveRecord","saveRecord");

        $.ajax({
            type:"POST",
            url:url,
            async: false,
            dataType: 'json',
            cache : false,
            processData: false,
            contentType: false,
            data:formEQData,
            success: function(obj) {
                alert(obj.msg);
                tempData.getRecord(); // Calling function to fetch the Record from DB.
            }
        });
    },
    getRecord:function(){
        var url="ajaxInfo.php";
        var myData = {getRecord:'getRecord'};

        $.ajax({
            type:"POST",
            url:url,
            async: false,
            dataType: 'json',
            data:myData,
```

```

success: function(obj) {
    globalData=obj.studentArr; // Assigning to Global Variable

    var content="";
    $('#tableRow').html("");
    for(var i = 0; i<obj.studentArr.length; i++) {

content+='<tr><td>'+obj.studentArr[i].stu_id+'</td><td>'+obj.studentArr[i].stu_name+'</td>'

?>

```

```

<?php
error_reporting(0);
session_start();

$con =
mysqli_connect("localhost","root","","student_db"); if
(mysqli_connect_errno()) {
    echo "Failed to connect to MySQL: " . mysqli_connect_error();
}
?>

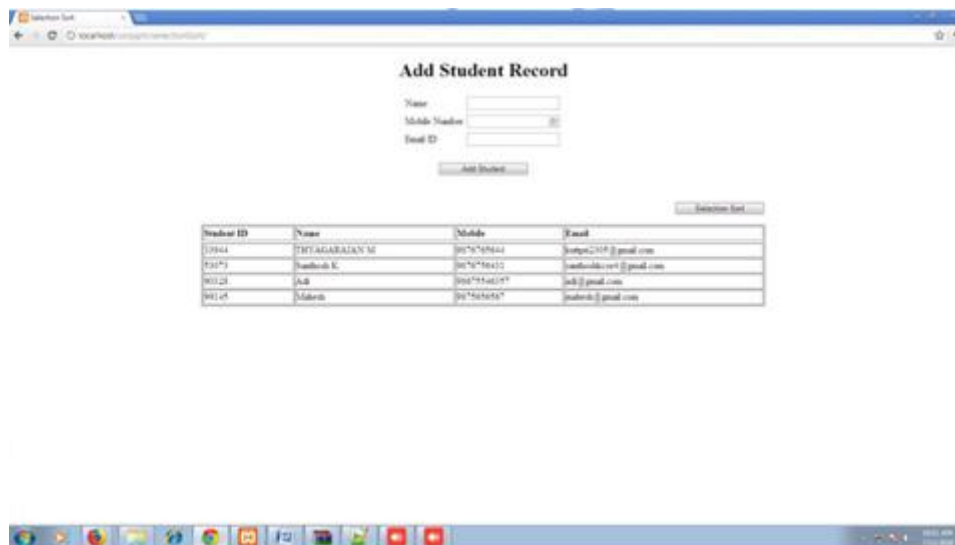

```

Steps to run

1. Create Database in phpmyadmin. [refer student_db.sql file]
2. run file browser.

1. ajaxInfo.php - Database related file [Save, Read, Selection Sort]
2. db.php - connect to database.
3. index.php - Home file [Ajax, JSon,]
4. jquery.min.js - [it will helps to run the ajax]

Output

The screenshot shows a web browser window with a form titled "Add Student Record". The form has three input fields: "Name", "Mobile Number", and "Email ID", each followed by a button. Below the form is a table with four columns: "Student ID", "Name", "Mobile", and "Email". The table contains four rows of data. At the bottom of the browser window, a Windows taskbar is visible with various application icons.

| Student ID | Name | Mobile | Email |
